

IMAGE-TO-PRINT

**Printing Technology & Innovation Days for Flexible Packaging
Durban, ZA | 14/15 March 2018**

The “Image-to-Print” roadshow set up by Janoschka, Windmüller & Hölscher, Siegwerk, Nordmeccanica and Rossini will be stopping for the first time on the African continent next.

The touring event, which has been running with huge success since 2009, is dedicated to supporting local printers, brand owners and the finishing industry. The workshops provide an insight into the best practices of gravure and flexographic printing and highlight global trends in the packaging industry.

The workshop's focus is on the requirements and conditions of the local market. The program focuses specifically on market developments, strategies and technical innovations in printing inks and printing tools as well as printing and laminating machines for gravure and flexographic applications.

Besides presentations and think tank discussions, the agenda of the conference will include a visit to a printer in the Durban area.

The symposium in South Afrika is the seventeenth stop for the very successful Image-to-Print roadshow, which has already visited Russia, Malaysia, Thailand, Brazil, Argentina, Dubai, Mexico, Indonesia, China, Vietnam, Italy, Poland, Hungary, Philippines, and China.

Welcome to the new hosting partners Siegwerk Druckfarben and Rossini who recently joined the Image-to-Print team and who will support and mentor the roadshow in future.
