Printing Technology & Innovation Days for Flexible Packaging Jakarta, Indonesia | 20/21 March 2019

The “Image-to-Print” roadshow set up by Janoschka, Nordmeccanica, Rossini, Siegwerk and Windmüller & Hölscher will have its next stop-over in Jakarta. After 2011 this will be the second conference for the Indonesian emerging market.

The touring event, which has been running with huge success since 2009, is dedicated to supporting local printers, brand owners and the finishing industry. The workshops provide an insight into the best practices of gravure and flexographic printing and highlight global trends in the packaging industry.

The workshop’s focus is on the requirements and conditions of the local market. The program focuses specifically on market developments, strategies and technical innovations in printing inks and printing tools as well as printing and laminating machines for gravure and flexographic applications.

Besides presentations and think tank discussions, the agenda of the conference will include a visit to PT. Siegwerk Indonesia, a leading worldwide manufacturer of printing inks for packaging. The visit will provide insights into the production and development of printing ink solutions for sustainable packaging.

The symposium in Jakarta is the nineteenth stop for the very successful Image-to-Print roadshow, which has already visited Russia, Malaysia, Thailand, Brazil, Argentina, Dubai, Mexico, Indonesia, China, Vietnam, Italy, Poland, Hungary, Philippines, China, South Africa and India.
